Capitol Appraisal Group, Inc.

The Centurion Series of
Mass Appraisal and Tax Collection Software

- Digital Photos of Property

- Document Imaging Interface

- GIS Interface

- Archival by Multiple Years

- Multiple O/S Platforms

- Query Tools

A unique feature of the product is the ability to reproduce rolls, cards and other reports in their original state given a specific date and time, regardless of subsequent changes. This feature is also viewable on the screen.

- Current and Delinquent Collections

- Adjustments

- Refunds

- Payment Tracking

- Cash Drawers

A complete transaction history is available to the collector for easy retrieval. All processing reflects a comprehensive audit trail of any change in taxes.
